

European Grand Prix 2026

The European Grand Prix (EGP) aims to connect diplomacy players across Europe and reward those players that excel throughout the year. The EGP combines the results of diplomacy tournaments in Europe as well as the Tour of Britain and Seven Year War league to determine the winner of the EGP circuit.

Furthermore, we encourage all organisers that are part of the EGP to take measures to improve the wellbeing of players, such as the installment of a code of conduct, the appointment of wellbeing officer that assists the Tournament Director and the application of the following hierarchy of priorities:

- Highest: The safety of attendees (and other people we may share the space with).
- Second: The community of Diplomacy players.
- Third: The fairness and competitiveness of the event.

Competitions included

It will consider 3 tiers of competition

- **Tier A:** EDC & WDC
- **Tier B:** 7YW & main tournament of any country at the reserve it has at least 5 boards and 14 players
- **Tier C:** secondary tournament of any country and main tournament of any country which does not make the requisite of tier B . Virtual Tour of Britain isn't anymore included in the EGP 2026

EGP Tournament in project

-  United Kingdom Diplomacy Championship, Warrington, UK 100%
-  Frankfurt, DE 60%
-  Second Dutch, NL, Holland 50%
-  Polish Diplomacy Championship ?

European Non EGP tournament

-  [Steel Showdown](#) hosted the 23 to 25 January UK, Yorkshire, Middleborough
-  Eclipse Tournament in project the 12 August FR, Nouvelle Aquitaine , Pau

Linear distribution of points

The principle of linear distribution is the following if 100 point are distributed between 10 players

1. 1° = 100
2. 2° = 90
3. 3° = 80
4. 4° = 70
5. 5° = 60
6. 6° = 50
7. 7° = 40
8. 8° = 30
9. 9° = 20
10. 10° = 10

Tier A System

- 500 points linearly distributed between all players
- 300 points linearly distributed between half of players (rounded up)
- 200 points linearly distributed between 25% of the players (rounded up)
- 10X N° BOARDS (capped to 30 boards) linearly distributed between the 7 first ranked players
- 5x N° players (capped to 75 players) linearly distributed between the podium

Tier B System

- 500 points linearly distributed between all players
- 300 points linearly distributed between half of players (rounded up)
- 200 points linearly distributed between 25% of the players (rounded up)
- 5X N° BOARDS (capped to 15 boards) linearly distributed between the 7 first ranked players
- 2x N° players (capped to 30 players) linearly distributed between the podium

Seven Year's War League

- 200 points linearly distributed between all players
- 300 points linearly distributed between half of players (round up)
- 500 points linearly distributed between 25% of the players (round up)
- 5X N° BOARDS (capped to 15 boards) linearly distributed between the 7 first ranked players
- 2x N° players (capped to 30 players) linearly distributed between the podium

Tier C System

- 450 points linearly distributed between all players
- 250 points linearly distributed between half of the players (rounded up)
- 150 points linearly distributed between 25% of the players (rounded up)
- 5X N° BOARDS (capped to 15 boards) linearly distributed between the 7 first ranked players
- 2x N° players (capped to 30 players) linearly distributed between the podium

Referee attributed points

the referee is automatically considered as the last one and thereafter 300 is substituted to the calculated points
